Prospect Career Roles Specimen collection officer
Laboratory aide
Pathology collector
Pathology assistant
Specimen reception assistant
Operation officer

Assessment Methods Short answer questions
Projects
Case studies
Workplace portfolio
Research reports
Practical placement
Practical logbook

Industry trend

Pathology is the collection of blood and other specimen for analysis. In today’s society where we need to undergo tests to determine our health and wellbeing, there is an increased demand for pathology services, which in turn improves service delivery to clients.

The Certificate III qualification allows the worker to perform routine extractions of blood and other pathology specimens. They may also prepare and process pathology samples for testing in a laboratory.

According to the Australian Bureau of Statistics “Almost half of persons aged 15 years and over in Australia (48%) had a pathology test in the previous 12 months. Women were more likely to have had pathology tests (55% compared with 42% of men).”

Working in this industry requires workers to undertake roles that include the collection of blood and other pathology specimens under supervision. It should be noted that this qualification does not cover collection of a range of specimens for specialised testing, collection of arterial blood gases or team leadership and training.

Course Information

Delivery Method

The Certificate III in Pathology Collection is delivered through a blended delivery method.

Students are provided with learner resources and assessment handbooks for each unit of competency. The assessment handbooks provide students with instructions on submitting assessments.

Please note: all students are required to attend **mandatory block training** held in Brisbane. Students must complete theory assessments for specific units of competency within the certificate before block training can be attended.

Practical Placement

Health Industry Training recognises that an important part of undertaking a qualification in health or community services is the practical component of the course. Practical placement provides students with an avenue to apply practical skills in a 'real life' environment where you can practice the skills and knowledge you have learnt during the course.

It is compulsory for students to undertake practical placement for the Certificate III in Pathology Collection.

Duration: Minimum of 35 hours.

Clinical placement can be completed with Sullivan Nicolaides or QML Pathology in your area or as close as possible to where you live, and must be completed within 2 months of completing block training. A placement fee is required to be paid as a separate cost to your training. This is to be paid to Health Industry Training prior to your placement being arranged.

Insurance

Health Industry Training provides insurance to all students undertaking work placement as part of their qualification.

Pre-requirements

As a student you must ensure you have completed the necessary 'Prior to practical work placement' activities listed below before practical work placement can commence.

- National Criminal History Clearance
- Immunisations and screening

Assessment Methods

Health Industry Training uses a range of assessment methods to ensure sufficient evidence can be gathered to demonstrate you can perform the tasks against the specified criteria. Assessment methods can include:

- Short answer questions
- Projects / Reports
- Case studies
- Scenarios
- Workplace portfolios
- Practical placement logbook

Recognition of Prior Learning

RPL considers previous formal study and work experience and then assesses this against the elements of competency to determine competency. Students seeking recognition can apply for RPL on enrolment or throughout the duration of their study.

Credit Transfer

If you have completed a unit of competency within your intended qualification with another Registered Training Organisation (RTO) you may be able to apply for a credit transfer or exemption. A copy of the original transcript must be provided when applying for credit transfer.

Admission Requirements

Entry Requirements

To enrol in the Certificate III in Pathology Collection it is anticipated that you will have completed year 10 or equivalent.

In addition, students are required to provide Health Industry Training with their Unique Student Identifier number.

Minimum Age Requirements

The minimum age for this course is 18 years old.

Literacy, Language, Numeracy (LLN) Requirements

Students must have an adequate level of Language, Literacy and Numeracy skills (LLN). Entry into the course requires English proficiency to Year 10 level or equivalent. Students are able to test their LLN skills by completing an LLN test by emailing info@healthindustrytraining.org.

Student Support

Throughout your course with Health Industry Training, you will be provided with a range of support services depending on your individual needs.

Trainer support: You will be provided with a team of dedicated trainers who are there to support and guide you through. You may contact a trainer via phone and e-mail for assistance. Your main support trainer will also contact you on a regular basis to ensure you are on track to finish your qualification within your timeframe. Our professional trainers are there to ensure you have a successful learning journey.

In addition to your trainer, the administration team can provide you with support including your enrolment, changes to contact details or study plan, progress report and any issues you may encounter throughout your course.

Peer support

Health Industry Training appreciates that distance/online learning can be an isolated experience for some students. To assist with isolation all students have the option to be part of a Facebook peer support group. Peer support groups can be a positive experience where you can study with like-minded people, ask questions relating to your course and build friendships.

Course fees and Financial Support

Funding for Queensland residents

Health Industry Training is proud to be a pre-qualified supplier for the Queensland Government, under the Certificate 3 Guarantee program. To be eligible for the Certificate 3 Guarantee funding, participants must not hold or be undertaking a Certificate III or higher qualification. Qualifications undertaken at school do not affect eligibility.

It is a requirement under the Queensland Government funding that all students contribute to the cost of training and assessment services. The fee may be paid on behalf of the student by a third party including an employer but cannot be paid or waived by Health Industry Training.

The contribution fee is different for students classed as concession and students classed as non-concession.

Concessional student status applies when:

- (a) the student holds a Health Care or Pensioner Concession Card issued under Commonwealth law, or is the partner or a dependant of a person who holds a Health Care or Pensioner Concession Card and is named on the card;
- (b) the student provides Health Industry Training with an official form under Commonwealth law confirming that the student, their partner or the person of whom the student is a dependant is entitled to concessions under a Health Care or Pensioner Concession Card;
- (c) the student is an Aboriginal or Torres Strait Islander;
- (d) the student is a school student and is enrolled in a VETiS program (may include young people in detention);
- (e) the student has a disability; or
- (f) the student is an adult prisoner.

Non-concessional student status applies if:

- (a) none of the above relates to the student status at the time of enrolment; or
- (b) the contribution fees are paid by a third-party including employer, or job network provider.

User Choice (Traineeship)

The Certificate III in Allied Health Assistance is available through the Queensland User Choice program which funds Health Industry Training for the provision of services to eligible trainees.

Apprenticeships and traineeships combine training with working in a real job. Apprentices and trainees work towards the completion of a nationally recognised qualification while learning valuable skills at work and under the guidance of a training organisation.

Funding for South Australia residents

Health Industry Training is proud to be a preferred supplier for the South Australia government's WorkReady initiative. You may be eligible for government subsidised training if you live or work in South Australia and you are:

- an Australian or New Zealand citizen
- a permanent Australian resident, or
- an eligible visa holder

and you are:

- 18 years or over and not enrolled at school,
- undertaking training through a training contract as an apprentice or trainee in an identified course

Eligible participants can access:

- one foundation skills course (if assessed to need it)
- up to five bridging units at every qualification level (if assessed to need them)
- unlimited priority courses.

To check your eligibility for funding visit <https://www.skills.sa.gov.au/subsidised-eligibility>

Traineeships

Skilling South Australia provides subsidies towards the cost of training and assessment services for eligible Trainees and Apprentices. The program aims to assist people to get skills and qualifications to build careers and meet the workforce needs of industry through growth in Traineeships and Apprenticeships.

For more information on Skilling South Australia funding, please visit <https://www.skilling.sa.gov.au/>

Other States - This course is also available to be delivered as a traineeship in other states. Training is available for new and existing employees. Please contact your preferred apprenticeship centre to arrange sign up of your Traineeship.

Fee-paying

To assist students who are not eligible for funding, Health Industry Training offers financial assistance by allowing students to take advantage of our affordable payment plan options (weekly, fortnightly or monthly instalments) (see enrolment form for additional information)

Course Structure

The Certificate III in Pathology Collection has been packaged to include:

14 units are required to be awarded the qualification including:

- 9 core units
- 5 elective units

The course combines theoretical and practical work placement experience. The theoretical component of the course provides the student with the relevant knowledge required to work in the primary health care sector.

The practical placement experience provides students with the practical knowledge and skills for students to work in a practical setting on completion of the qualification.

The table below provides a list of the units of competencies offered by Health Industry Training

Unit Code	Unit Title	(Core/Elective)
CHCCOM005	Communicate and work in health or community services	Core
